The principal business of **St. Elias Mines Ltd.** is the acquisition, exploration, development and sale of high potential mineral properties in the most prolific regions of the world. At present, the Company is focusing its exploration efforts on gold in Peru with three gold properties (Tesoro, Vilcoro and Cueva Blanca.)

HIGHLIGHTS

- *Upcoming drill program on St. Elias' 100%-owned flagship property, the **Tesoro Gold Project** in Peru.*
- *Consistent high-grade bulk samples averaging **0.93 oz/t** gold from ongoing underground exploration and development program at **Tesoro**.*
- *Stage 1 Titan 24 Geophysical Survey at **Tesoro** identifies deep drill targets as well as an ovoid (egg shaped) anomaly approx. 1,450m long x 400m wide and 300 - 500m thick and is open to the south.*
- *Stage 2 Titan 24 Geophysical Survey at **Tesoro** scheduled to start late April.*
- *Open-pit disseminated gold zones at **Tesoro** on surface.*
- ***Vilcoro Gold Project** in Peru, drill ready, favorably located adjacent to Barrick's Lagunas Norte Property (+9 million oz gold).*
- ***Cueva Blanca Property** in Peru lies along same geological belt (Tertiary) of rock as many multi-million ounce gold deposits occurring in Peru along the "Spine of the Andes" (i.e. Yanacocha, Pierina. Lagunas Norte.)*
- *Four projects currently being advanced through option agreements, exposing St. Elias to over **\$7.1 million in exploration** (funded by other parties) over the next 3 years.*
- *Gold hitting new bull market highs - reinforcing solid bull market in gold.*
