Allot partners with Mobileum to enhance roaming services for Tier 1 US mobile network operator

Allot Ltd (NASDAQ:ALLT) (TASE:ALLT), a security and smart network intelligence solutions company, announced Wednesday that it is partnering with US roaming and data analytics solutions provider Mobileum, to enhance the quality of roaming services for the customers of a Tier 1 US mobile operator.

Mobileum will integrate Allot SmartVisibility with its Roaming CEM and Roaming Customer Analytics Active Intelligence solutions to provide its Tier 1 US customer with enhanced visibility of roaming services, including VoLTE roaming. The solution will empower the operator to enable roaming services for all its subscribers with consistent quality.

"Allot has the ideal combination of know-how, experience and technology to enhance the quality of experience and security for mobile networks and their customers," said Ran Fridman, executive vice president of worldwide sales, at Allot. "We are very pleased to contribute to the Mobileum roaming solution adopted by a Tier 1 US mobile network operator to drive its business objectives."

Fridman said the company looked forward to exploring additional collaboration opportunities.

"Operators' roaming services portfolios often encompass voice, text and data services carried over older network technologies such as 2G and 3G, and the newer LTE and VoLTE standards. There are many parameters that need monitoring to ensure an always-on roaming experience," said Mobileum Chief Technology Officer Avnish Chauhan. "For this customer, the enhanced visibility of VoLTE roaming QoS provided by Allot supports our solution to deliver higher order comprehensive insights with proactive alerting over roaming registration, data and voice across the entire portfolio."

Allot Ltd is a provider of network intelligence and security solutions for service providers worldwide. Their solutions are deployed for network and application analytics, traffic control and shaping, and network-based security services. The company's multi-service platforms are used by over 500 mobile, fixed and cloud service providers and more than 1,000 enterprises.

Allot NetworkSecure is the world's largest deployed network-based security service for the mass market, with over 20 million paying security customers.
