Global Hunter - receives permit for 3,700 metre drill programme at Rabbit South Project in B. C.

Canadian Venture and Frankfurt listed Global Hunter Corp (TSX.V: BOB, FSE: G5D) is on its way to advance the development of its Rabbit South molybdenum project. The company has received the Activities and Reclamation Permit (MX15-125) from the British Columbia Ministry of Energy, Mines and Petroleum Resources for the proposed 3,700 metre diamond drilling program of the molybdenum mineralization at Roper Lake, Rabbit South.

The drill programme was initiated this month and is designed to confirm historical results and to establish a level of confidence in pre-2005 work. Once the drilling is completed towards the end of the year, the Company plans to submit all necessary data to be included in an initial NI 43-101 compliant resource estimate on the property.

Global Hunter's Rabbit South molybdenum project is located within a prolific mining region in the Dominic and Roper Lake area, 27 kilometres west-southwest of the city of Kamloops British Columbia. The property consists of 1,900 hectares and is accessible year round by a combination of highway and logging roads. Rabbit South is situated 25 kilometres northeast of Highland Valley, BC's largest porphyry copper mine (1.4 billion tonnes @ 0.40% Cu) and 12 kilometres southwest of Afton, BC's richest porphyry copper mine (107Mi tonnes @ 1.05% Cu, 0.70g/t Au).

The company also has a copper/gold project in Chile in its La Corona de Cobre project. The project is located 70 km north of La Serena, along the Pan American Highway within the coastal belt of the Andean Cordilera of Chile and is in an established mining district, well-surrounded by excellent infrastructure.
