Phunware's Smart Workplace solution to be featured on Cisco Meraki marketplace

Phunware Inc (NASDAQ:PHUN) has said its Smart Workplace solution will now be featured on the Meraki Marketplace, owned by San Francisco cloud-managed IT company Cisco Meraki.

Phunware, which develops a fully-integrated enterprise cloud platform for mobile that provides products, solutions, data, and services for brands worldwide, said the multiscreen-as-a-service (MaaS) smart workplace solution has been designed to "effectively address critical challenges brought on by managing a workplace not only in a post-pandemic world, but also one that has now become mobile-first".

The solution is designed to help employers manage room bookings, enable positioning, wayfinding, and navigation throughout facilities, enable location sharing amongst its employees, partners and customers, and extend its other building services via mobile integration and activation.

The solution will become available on the Meraki Marketplace, an exclusive catalog of Cisco Meraki's technology partners, including Phunware, which allows customers and partners to view, demo and deploy commercial solutions developed on top of the Meraki platform.

"We developed MaaS to enable large corporations like Cisco to efficiently distribute our software globally for digital transformation initiatives in mobile environments," Phunware president, chief executive, and co-founder Alan S. Knitowski said in a statement.

"Our Smart Workplace solution can help enable thousands of Cisco Meraki customers to not only increase employee productivity and satisfaction, but also to provide their visitors and guests with enhanced brand experiences while onsite, including automated arrival and reception check-ins, health surveys, location tracing, broadcast, geofence and beacon-based messaging and personnel and staff engagement by name, position and department", he added.
